
Yale UX Series

4-Wheel Electric Forklift

ERP15-35UX / 1500-3500KG

www.yale.com.au

Yale 
People. Products. Productivity.™

Features

1 Wide View Mast

The wide mast view maximizes the operator's forward field of view, providing comfort and safety.

2 Small Steering Wheel

The adjustable steering wheel position provides convenience for the operator as it provides 8 degrees of adjustment. Low steering effort makes it easy to operate in confined spaces.

3 Integrated Motor, Transmission and Axle

The compact structure of the drive system provides adequate access for maintenance. Precision cut gears are incorporated, leading to reduced wear and lower noise levels.

4 High Strength Overhead Guard

The overhead guard features profiled steel, with high strength materials to enhance reliability and operator protection.

5 AC Controller

European designed AC controllers coupled with AC traction and hydraulic motors allow for precise truck operation. The controllers are easily accessible which can also minimise service time.

6 Low Step Height

The conveniently positioned low step provides easy access to the truck.

Overview

The Yale® UX Series provides the ideal solution to meet your less frequent usage needs, without compromising on performance.

The Range

The ERP15-35UX range is available in six different capacities:

1,500KG – ERP15UX / 1,800KG – ERP18UX

2,000KG – ERP20UX / 2,500KG – ERP25UX

3,000KG – ERP30UX / 3,500KG – ERP35UX

Design

The UX series was engineered with the driver at the forefront of the design process. The operator compartment has been configured to enable the driver to work effortlessly and in comfort, allowing easy accessibility and controllability. A range of standard and optioned features are available for this range to enable the user to configure the truck to its application-specific needs.

Hydraulics

The high quality cylinders with hard chrome rods reduce seal wear for longer life. The full-flow, low pressure filter on the return helps keep the hydraulic oil clean. This in turn can help minimise the overall seal and pump wear. In addition, it can also keep the control valve in good condition, which leads to lower service costs.

Low Cost of Ownership

With the use of high quality and robust components, the UX series provides the driver with reliable operations and lower wear and tear. Coupled with fast availability of genuine and cost-effective replacement parts is what helps to reduce the maintenance costs and requirements.

Engineered for Drivers

► Service

- AC traction and hydraulic motors reduce maintenance cost
- IP54 design enhances reliability
- The controller assembly is mounted inside the counterweight and is protected by an easy to remove cover
- CANbus communication simplifies troubleshooting

► Operations and Compliance

- High visibility mast with soft landing as standard to absorb shocks
- Controlled mast lowering speed avoids damaging goods
- Secure overhead guard passed CE drop test and safety standards
- LED lights as standard
- Operator presence system provides increased operator safety
- Sequential seatbelt interlock feature and travel speed limiting with mast elevated available for Australia

► Comfort

- Hydraulic power steering requires low steering effort without kick-back which allows for precise positioning
- Full suspension seat reduces driver fatigue
- Low noise and vibration
- Adjustable steering column and seat to suit all operators
- Low entrance step and large floor space
- Ergonomically designed hand brake

► Performance

- Simple and clear display of speed, power, error code, working hours ensure that the operator is fully informed
- The latest colour display integrated with functions such as performance selection allows the operator to configure the truck to meet different application requirements
- AC traction and lifting motors, with electronic control delivers a high level of performance
